REMARKS

In response to the Notice to File Corrected Application Papers (hereinafter "the Notice") mailed July 15, 2011, applicant submit the foregoing amendments and the following remarks.

Identification of Specification/Drawing Inconsistencies

As stated in the Notice:

On Page 10 of the specification there is a brief description of FIG. 2, 5, but the drawings filed 08/17/2006 do not include a drawing with that designation. Applicant must respond either by supplying the omitted drawing or by amending the specification to remove all references to that drawing.

In this regard, applicant has amended the brief description of the drawings at page 10 of the specification to remove the references to "FIG. 2" and "FIG. 5." The reference to "FIG. 2" has been replaced with "FIG. 2A" and prior reference to "FIG. 2A" (e.g., at page 10, line 7) has been replaced with "FIG. 2B." These changes were made in the figure descriptions and also in the detailed description. The reference to "FIG. 5" (i.e., at page 10, line 13) has been replaced with "FIGS. 5A and 5B."

The Notice also stated:

The drawings filed 08/17/2006 include FIG. 2B, 6E, but the specification's brief description of the drawings does not describe a drawing with that designation. Applicant must respond either by amending the specification to add a brief description of that drawing or by correcting the drawings to remove the drawing in question.

With regard to FIG. 2B, applicant has amended the brief description of the drawings to replace the prior reference to "FIG. 2A" (i.e., at page 10, line 7) with "FIG. 2B." Applicant respectfully submits that this correction addresses the noted inconsistency with regard to the figure description for FIG. 2B.

Regarding FIG. 6E, applicant respectfully disagrees with the contention that the brief description of the drawings does not describe a drawing with that designation. In this regard, applicant respectfully submits that page 10, line 20 of the specification provides a brief description for FIG. 6E; however, a small typographical error in that description is corrected (i.e., replacing a comma “,” with a period “.”) in the above amendments to the specification. Applicant believes that the Notice may, instead, have intended to reference the omission of FIG. 6E from the application papers filed August 17, 2006. In this regard, applicant is submitting a new drawing sheet that includes FIG. 6E herewith. Support for this figure is provided in the figures of the priority document, U.S. Provisional Application No. 60/550,415, a certified copy of which was submitted to the office on August 17, 2006.
